UMLAZI DISTRICT MATHEMATICS INDABA

1. In collaboration with SACE KZN, Kutlwanong and Capitec, Umlazi District has organised a 2 day intensive development session for Maths educators particularly in Grade 10-12 and a few from the Capitec Maths programme
2. Considering that the District finds itself operating at the 2 extremes in terms of Maths performance, there is a view that if we invest more in the development of Mathematics content methodology, the district will perform much better going forward. This therefore, is part of our strategic intervention to improve performance.
3. As such, 175 Maths educators mainly from schools that achieved below 60% in the 2021 NSC Examinations (but not limited to this category) have been identified to attend this training. Another 5 educators from schools that are doing well in Maths have also been identified to attend and share their good practices and methodologies in the Maths Indaba scheduled for 2 days.
4. The list of identified Maths educators has been submitted. Attendance at the Maths Indaba is compulsory for all identified educators. Principals of schools must ensure that this directive is carried.
5. The District Mathematics Indaba will be held as follows :
Date: 8 & 9 April 2022
Venue: Blue Waters Hotel
Time: 08h:30 - 18h:00 on Day 1 & 08h:30 - 14h:00 on Day 2
