Towards Excellence in Education

SOUTH AFRICAN COUNCIL FOR EDUCATORS

Foreword by the Member of Executive Council

The South African Council for Educators (SACE) has, in the last two years, introduced the process of professionalising the teaching profession with an ultimate goal of enhancing its standing, status and internal quality. In line with this, SACE's professionalisation process is positioned within a broader context of government's vision to professionalise the public service through the constitution of the country, National Development Plan: Vision 2030 and other related initiatives. Thus, as a statutory professional self-regulatory body, SACE has an enormous role to play as the profession's self-regulator through determining entry into all levels of the profession, promoting and managing a system for continuing professional development, and setting and upholding the professional and ethical standards. This legislative mandate of SACE forms part of its self-regulatory framework which is fundamental to building a capable teaching force that is highly developed, value-driven, accountable as well as being governed by high professional and ethical standards in delivering quality education in schools and colleges. The ethical and professional standards are also critical in instilling confidence, and providing assurance and trust to the public and parents that the professional service delivered by teachers is of high quality and ethical standards.

Council has concluded the job evaluation process, during the 2018/19 financial year, with an ultimate goal of enhancing the organisational structure and internal capacity with regard to human capital. As a result, new positions have been created and a number of appointments have already been made. Similarly, the SACE monthly levies have been increased to enhance the organisation's financial resources and increasing visibility at provincial level. In line with this, additional provincial offices will be secured during the 2019/20 financial year.

In 2019/20 Programme 1 (Registration of Educators) will continue to register newly qualified educators and in doing so, it will introduce the submission of police clearance as a requirement for determining the applicants' suitability to practice and work with children. Linked to this will be the establishment of a joint Registration and Ethics Fit-to-Teach Committee that will deal with applicants that have serious criminal record. The online registration will be introduced and this will assist with reducing the walks-in registration.

Programme 2 (Legal and Ethics) is key in implementing and enforcing the SACE code of professional ethics in the teaching profession. In doing so, it will engage in the following activities: advocating and communicating the code, managing a system for handling cases, and administering the disciplinary processes. Therefore, internal capacity has been increased, through the organisational job evaluation process. This will go a long way in strengthening the case management process and minimising backlogs. Additionally, SACE will be collaborating with the Department of Basic Education on two protocols that deal with (a) the reporting of the sexual harassment and abuse cases to SACE by the Provincial Education Departments and (b) the reporting of sexual harassment abuse and harassment cases to SACE and the Provincial Education Departments by schools, parents, learners and the public.

The Continuing Professional Teacher Development (CPTD) System (Programme 3) is moving towards completing the sign-ups in terms of the practicing educators. While the educator sign-up process is moving very well, there are challenges in terms of educators, schools, and providers reporting to SACE participation in the CPTD system. Ultimately, this has a negative bearing on the extent at which educators fulfil the requirements for earning 150 Professional Development Points over a cycle of three years. In 2019/20 Programme 3 will focus on systems and processes to enhance the education and support of professional development uptake by educators at individual, school and provider levels. Also, new professional development activities will be endorsed and providers approved, as well as the quality assurance of the professional development provisioning on the ground.

In terms of Programme 4 (Professional Standards) SACE will continue to advocate for its teacher professionalisation path across the teacher education and development continuum. In doing so, it will, through Programme 4, finalise the gazetted professional teaching standards and possibly field test them through phased-in implementation process. Programme 4 will also develop the professional teacher designation as well as working with the Departments of Basic Education and Higher Education and Training on the teacher induction model and determining criteria for entry into initial teacher education respectively.

Lastly, Programme 5 (Research Policy and Planning) will look into supporting Council and advising the Basic and Higher Education Ministries on various education and development matters, through policy and research. A process of developing the virtual library will also commence in 2019/20.

PART A: STRATEGIC OVERVIEW

SOUTH AFRICAN COUNCIL FOR EDUCATORS

1. UPDATED SITUATIONAL ANALYSIS

The entity reviewed its Annual Performance Plan in the context of prevailing policy imperatives that are linked to its mandate and clearly espoused by the Department of Basic Education, and through the entities Strategic Plan 2015-2020. The strategic plan was a key document that was relied upon when developing the Annual Performance Plan 2019/20. Although the policy trajectory remains largely unchanged the service delivery environment is affected by a number of factors. These issues are discussed below.

1.1 Performance Delivery Environment

The South African Council for Educators (SACE) derives its core mandate from the SACE Act no.31 of 2000, as amended. In line with the Act, SACE has a mandate to enhance the status of the teaching profession by registering educators, managing a system for continuing professional development for all educators and setting and maintaining the ethical and professional standards. The mandate is further strengthened by chapter 9 of the National Development Plan (NDP, 2012) which views the role of SACE as setting the professional standards and ensuring that there is quality provisioning of teachers' continuing professional development through the approval of providers and endorsement of programmes and activities that are fit for purpose. This professional development quality assurance role is detailed out in the National Policy Framework on Teacher Education and Development (2007) and the Integrated Strategic Planning Framework for Teacher Education and Development. Lastly, the National Qualifications Framework further requires that SACE, as a professional Council be recognised by the South African Qualifications Authority and most importantly, develop and implement the profession teacher designation in order to acquire that status. All these legislation and policies are pivotal in contributing to SACE's strategic goals in 2019/20 and the country's Outcome number 1: Improved quality basic education and the related basic education sectoral priorities.

The South African government, through the Department of Public Service and Administration, is going through the process of professionalising the public service. In line with this, SACE has, in the last two years initiated a process of professionalising the teaching profession. This will take a step further in terms of gazetting the professional teaching standards during 2019/2020 and implementing them across the entire teacher professionalization path From 2020/2021 in terms of the following: determining criteria for entry into initial teacher education, provisional registration of student teachers, and professional certification and awarding of the professional designation that is dependent on the mandatory induction process, and periodic re-certification that is linked to fulfilling the requirements of the CPTD system. Adequate internal capacity and systems coordination will be needed to fulfil this mandate effectively.

It is expected that the Council will generate approximately R 103 million per annum

1.2 Organizational Environment

The Council has staff complement of 104 employees. The Council has appointed 13 provincial co-ordinators to facilitate and manage Continuous Professional Teacher Development. As indicated in the previous financial year, there was a need to improve case management to process the increasing number of reported cases. The Council has appointed two full-time investigators, a para-legal clerk and increased its pool of resource persons. Currently there are two Provincial offices (Free State and Kwa Zulu Natal) which are operational in the current year. And there are plans to open additional offices in the Western Cape; Limpopo and Eastern Cape during the 2019/20 financial year.

The organisation generally suffered internal capacity challenges throughout the 2018/19 financial year. This had an impact on Divisions such as Ethics and Teacher Professionalisation. However, Council mitigated that through a job evaluation process that resulted in additional staff at strategic level, especially at senior management and ethics levels, amongst others.

2. REVISIONS TO LEGISLATIVE AND OTHER MANDATES

There have been no significant changes to the entities legislative and other mandates as outlined in the strategic plan. There are no pending court cases.

The Entity functions under several legislative mandates, which include among others the following:

Legislative mandates

TITLE
Education Labour Relations Council (ELRC) – ERLC Act (1993)
Employment of Educators Act, 1998 (Act 76 of 1998)

3.1 Relating expenditure trends to strategic outcome-oriented goals:

Registration: The increasing cost over the MTEF will enable the Council to implement on-line registration, data clean-up and verification. It is expected that the number of applications for registration remain at an average of 35 000 for the current year and 40 000 for updates. Updates include provisionally registered student teachers who produce their completed qualifications for full registration

Code of Ethics: It is expected that the number of reported violations will increase over the MTEF. The council will increase its effort to clear the growing number of uncompleted cases. This will reduce the costs of handling cases. The council will continue to embark on advocacy campaigns to reduce the number of violations by educators. The campaign may increase number of reported cases initially but will decrease violations in a long term. The amount of R2, 500 million has been allocated to this function for the 2019/20 financial year.

Professional Development: The Department of Basic Education funds the Continuing Professional Teacher Development system. The department has approved a budget of R20 million for 2019/20 to subsidise the management of continuing professional Teacher Development. The total Professional Development budget also includes costs for the approved teacher professionalization path and the consultations on the professional practice standards. During the MTEF we shall be finalizing the professional standards and focus on the popularisation thereof. The council will continue to finalise the CPTD sign-ups (especially for teachers in special education needs schools, including school psychologists and therapists) and monitor and support the implementation of the three-year CPTD cycle with the three cohorts.

Research: The Council intends making improvements on the delivery of this mandatory function. The council has not made a good impact in terms of this advisory function. With the average budget of R1,3 million over the medium term, the council will make a better impact in terms of research for self-renewal and research on professional matters. In addition, a research resource centre will be established. This will result into educators' virtual library in the long-term.

PART B: PROGRAMME AND SUB – PROGRAMME PLANS

SOUTH AFRICAN COUNCIL FOR EDUCATORS

4. PROGRAMME 1: REGISTRATION OF EDUCATORS

The purpose of this programme is to register qualified educators and create sub registers for special categories; maintain and update educator database; and enhance the quality of the registration of teachers by introducing standards.

Key Focus areas for 2019/20

- Consider and decide on any application for registration
- Keep a register of the names of all persons who are registered
- Determine period of validity of the registration
- Determine minimum criteria and procedure for registration
- Maintain and update educator database

4.1. Strategic Objective

Strategic Objective Title	To register all qualifying educators who apply for registration
Strategic Objective Statement	To register unregistered practicing and newly qualified educators in the country, and special categories of educators

The increasing cost over the MTEF will enable the Council to implement on-line registration, data clean-up and verification. It is expected that the number of applications for registration remain at an average of 35 000 for the current year and 40 000 for updates. Updates include provisionally registered student teachers who bring their completed qualifications for full registration

5. PROGRAMME 2: LEGAL AND ETHICS

Programme Purpose:

The purpose of this programme is to:

- Promote ethical conduct among educators through the development and enforcement of the code of ethics.
- Facilitate interventions and support for schools, educators and school communities on ethical matters.

Key Focus areas for 2019/20

- To receive and record all complaints lodged with SACE;
- To investigate complaints of improper conduct against educators;
- To mediate over disputes where a disciplinary hearing is not warranted;
- To institute disciplinary hearings at the behest of the Council where evidence of a breach of the Code of Professional Ethics for Educators has been found; and
- To process appeals lodged with the CEO.

5.1. Strategic Objective

Strategic Objective Title	Set and maintain ethical standards and process complaints.

The amount of R2, 500 million has been allocated to this function for the 2019/20 financial year.

6. PROGRAMME 3: CONTINUING PROFESSIONAL TEACHER DEVELOPMENT MANAGEMENT (SYSTEM)

Programme Purpose:

SACE has a responsibility to manage a system for continuing professional development with the support of the Department of Basic Education and the nine Provincial Education Departments. In line with this, SACE will:

- Ensure that educators engage in life-long learning throughout their career.
- Ensure that educators' classroom practice and professional competence are improved through the provisioning of quality SACE approved providers and endorsed professional development programmes

Key Focus areas for 2019/20

- Implement and manage the CPTD System
- Support educators on professional development
- Endorse professional development activities;
- Approve professional development providers; and
- Development and maintenance of the CPTD Information system

The total Professional Development budget also includes costs for the approved teacher professionalization path and consultations on the professional practice standards. During the MTEF the organisation will be finalizing the professional standards and the popularisation thereof. The council will continue to finalise the CPTD sign-ups (especially for the teachers in special education needs schools, and school psychologists and therapists) and monitor and support the implementation of the three-year CPTD cycle with the three cohorts, as well as supporting professional development uptake.

7. PROGRAMME 4 : Professional Standards

Programme Purpose:

The purpose of this programme is to:

- To develop a set of professional standards for teachers' practice that is theoretically informed, contextually appropriate and widely accepted by stakeholders;
- Develop various strategies and processes of assisting and supporting educators with regard to professional matters and needs;
- Improve and maintain the status and image of the teaching profession;
- Facilitate processes of ensuring that more and better teachers join the teaching profession; and
- Ensure the quality of initial teacher education and ongoing professional development through quality assurance mechanisms and standards.

Key Focus areas for 2019/20

- Consultation of the teacher professionalisation programme which will assist with the risk of buy-in.
- Maintain strategic structures where the SACE mandate in the form of teacher professionalisation can be advocated with updates on SACE programmes
- Develop, implement and maintain professional practice standards across the teacher education continuum; and
- Develop the framework for certified teacher professional designation.

The Council intends making improvements on the delivery of this mandatory function. The council has not made a good impact in terms of this advisory function. With the average budget of R1,3 million over the medium term, the council will make a better impact in terms of research for self-renewal and research on professional matters. In addition, a research resource centre will be established. This will result into an educators' virtual library in the long-term.

PART C: LINKS TO OTHER PLANS

SOUTH AFRICAN COUNCIL FOR EDUCATORS

8. LINKS TO LONG TERM INFRASTRUCTURE AND OTHER CAPITAL PLANS

The Council has taken a decision to expand its operations to provincial level by establishing provincial offices in the 8 provinces with the exception of Gauteng where the Head Office is located.

Two provincial offices in Kwa-Zulu Natal (KZN) and the Free State are operational since 2015.

The next (3) three offices will be established in the Western Cape; Limpopo and Eastern Cape to be operational within the 2019/20 financial year.

The establishment of provincial offices will service the following:

- Deliver full mandatory functions under the control of the head-office;
- Taking service to the public;
- Availing local presence and improve awareness of Council's roles.

The Council has increased its subscriptions to enable this plan and to improve delivery of mandatory functions.
